BARNARD CASTLE, SEP. 19th, 1866.

THE long-continued and unsessonable rains with which we have just been visited, have not been an unmixed evil. They have cast a gloom over the prospects of the farmer, and caused a rise in the price of bread, but an abundance of uncontaminated water, it returns. may seem strange that in some parts of CRICKET.—On Saturday last, a match was CROP.—I large stack of prime clover hay, very well-which may be taken off the premises; 6 stacks of old England these blessings should be so rarely between the First Eleven of the Club, and Twentyexperienced. Such, however, is the fact, and two Cricketers of the town and neighbourhood. As hundreds of thousands of our fellow-subjects victory. Mr J. Atkinson, and Mr T. Green were are daily living in the midst of those in umpires. The following is the score :fluences which propagate Cholera and Fever in their direct form. It is well-known that Hellimond, run out ... infected air and water are the surest agents in White c & b Bailey bringing to maturity the seeds of disease Badcock, b Bailey lurking in the human constitution.

In the West Riding of Yorkshire, in Woodhams, b Bailey Lancashire, and in several of the Midland Walton, run out Counties, the manufacturing towns, with the Watson, c Lat, b Bailey extension of commerce, have far outgrown Blenkinson, c Lex b Railton 2 b Beah their original boundaries. A century or more Rutherford, b Bailton M. Heslop. There is a good Seem of Slate and Fiss towns extended, these streams were gradually built over, their sites incorporated in the ever- Dalkin, run ont advancing buildings, and streets erected above them. Thus, in time, the sparkling open rivulet was converted into a closed and loathsome sewer, the receptacle for every description of filth, and instead of bearing health in its waters, it carried nothing but A FIELD, called the "Roods," containing Two disease and death. This had been going on for so long, that the depth of filth in some of these watercourses was so great that the ordinary flow of water was quite insufficient 'o remove it, whilst even in time of flood the eposit was but stirred up or moved a little vay, and still left to give forth its putrid xhalations. At length came the welcome rains, and we learn that these streams have been cleansed of their impurities. In Lancashire many a rivulet is now running clearer than it had ever before done in the memory of the oldest person living,
