Startforth Rural District Council

MAIN ROAD CONTRACT AND THE HOSPITAL QUESTION.

The monthly meeting of the Startforth Rural District Council was held on Wednesday, under the presidency of Mr T. Walton, J.P. under the presidency of Mr T. Walton, J.P., the chairman. There were also presnt Messrs. W. Dent, R. Lodge, S. Hogg, T. Bayles, J. Peacock, E. Andrews, J. Hird, W. Birkett, D. Alderson, J. Allinson, Raine (Holwick), Waller, Raine (Raven's Nest), Garth, Ben Sayer, W. Bowes, W. Errington, G. V. Tarn, Metcalfe, W. J. Watson (clerk), T. Brown (surveyor), and W. Porter (inspector).

Thorsgill Bridge.

The Surveyor reported that he had rolled 1,981 yards, chiefly main road, on the Brough and Middleton, Winston Bridge, and Egglestone Abbey highways.—Mr Hird said he was round that way on Wednesday, and he thought the contractor had finished the new bridge at Thorsgill.—The Chairman (to the Surveyor) You must get the wall measured as soon as possible, and let the man have his money.—Mr Hird: I think that is rather an important The man is not a millionaire, and he should have his money at once.

Thornberry Road Dispute.

The Clerk: There seems to have been some mistake about that, because Mr Alderson had received his letter before the last meeting of the Council, and had really done the work and the Surveyor will no doubt have inspected what Mr Alderson has done.—Mr Hird: Yes, I was past there, and it appears to be satisfactory. It seems to me that it can be used as a drift road or a bridle road, and I take this opportunity of thanking the members of the Council for supporting me in the action I felt compelled to take in these unfortunate road

The Main Roads Contract Signed.

The Clerk stated that the contract for the main roads had been accepted at the figures they had sent in, and, on the motion of Mr Dent, seconded by Mr Alderson, it was agreed that the Chairman and Clerk sign the contract -The Chairman: I think this is the first time there has been no dispute about it.—The Clerk read copious extracts from the report of the County Surveyor, who dealt exhaustively with certain defects in very numerous stretches of main road which he variously described as being tracked, dirty, weak, and thin, in the Council's area, and added: "The grant on these roads cannot be paid until the above repairs are satisfactorily completed."— The Surveyor: He was just there when the snow broke up, and when the frost had given way. There was nearly three months in which the roller was doing nothing. You cannot roll in frosty weather.—The Chairman: We seem to be a long way behind-hand.—Mr Dent said they might complain as they liked but their road was a king to the Westmorland road.— Mr Hird: Would it be possible to put these particular roads in repair before the end of March?—The Surveyor: We should have been a good bit further if it had not been for the

The Surcharge as to Mr. Hunt's Horse.

The Clerk: I have had a reply from the Local Government Board asking one or two questions to which I have been able to reply. The main point they wanted to know is of what nature was the contract entered into by the Council with the workmen for the clearance of the snow, and I have explained the facts of the case.—Mr Lodge: There is no contract.—The Clerk: I explained how it had always been done by the highway board, and we have embedded that.—The Clerk added

"Unfortunate with our Horses."

discontinue the water carting to the steam roller, on the ground that they had been unfortunate with their horses. If they could be relieved they would be obliged.—Mr Lodge: I move that we don't accept a fortnight's notice. Mr Brown must tell them that we require a month's warning, and in the meantime the Surveyor must advertise, the appointment being made at the next monthly meeting.—Carried.—The Chairman: We shall have to have a special meeting.

Bowes Bridge and Repairs.

A letter was read from the District Middleton-in-Teesdale.

Engineer's Office, Bishop Auckland (North May 24th, 1909. Eastern Railway) stating that it was proposed to carry out the work to the bridge west of Bowes railway station next month, and, about June 2nd, as to the roadway, when it would be necessary to erect caution boards for motorists the cost being borne by the railway company.

—Mr Dent moved approval, and Mr Lodge

The Recent Accident in Deepdale.

Mr T. N. Raine: Whose business is it to look after the footpaths in the district? Does it belong to the Council, or to the landlords ?- The Chairman : Or the parish council? -M T. N. Raine: Some of you will have seen in the "Teesdale Mercury" that at the bottom end of Deepdale a man had fallen a considerable distance, and he was so injured that he was sent to the Newcastle Infirmary. The footpath has become very dangerous. I was wondering if we were liable, or the landlord?—The Chairman: Is it a public footpath?—Mr Andrews: And could it be called a thoroughfare?—A Voice: Yes, certainly it is a thoroughfare!—Mr Raine: And it is in Lartington township. The water has washed the road away.—Mr Hird: If there is no parish council it will be the parish meeting.— Mr Raine: There is a drop of ten feet.

Quarries Needing Protection.

Mr Waller said they had two quarries in very dangerous state in the Baldersdale district, namely, Howgill and Greenhill, Hunderthwaite.—The Surveyor: There wants some fencing.—It transpired that these were common quarries, and, on the motion of Mr Dent, seconded by Mr Hird, it was agreed to protect the quarries.

Thorsgill Bridge Parapet.

Mr Peacock : The parapet wall at Thorsgill bridge needs repairing very much.—The Chairman: Which is that? The new bridge? (Loud laughter).—The Surveyor: It is half-a-mile further down.—Mr Peacock: I move that it be attended to.-Mr Dent: I second that.-The Chairman: You have a good week or two's work. Can you do them all at once?—The Surveyor: Yes.

The Mickleton Case.

The Inspector said the case of Mr Raine had been before the Bench that day, and he had got off very lightly, being fined one penny per day for the last twenty-eight days' default, and ordered to pay the costs. The justices had also made an order for that Council to complete the sanitation, and charge the cost.—The Chairman: That is satisfactory. I suppose you will see that it is done.

The New Infectious Hospital.

The Clerk: I have this morning received a communication from the solicitors of Mr Hutchinson's trustees, and they report that they are glad to say that they have induced the several parties necessary to the conveyance not to press the spring (water) question any further. Accordingly they have returned the draft agreement approved, as revised by

NOVELTIES FOR WHITSUNTIDE.

INSPECTION SOLICITED.

ROBERT ORD, BARNARD CASTLE.

The Barnard Castle Sanitary Steam Laundry

Is the Pioneer Steam Laundry of Barnard Castle and District, and The Only Steam Laundry in the town. It is replete with the Finest and Most Modern Machinery known to the trade, and can therefore turn out the Highest Class of Steam Laundry Work, as proved by the Unsolicited Testimonials of Customers. UNSOLICITED TESTIMONIALS.

The Vicarage. "I have been perfectly satisfied with the manner in which my Laundry work has been done by your firm all these years."

Camp, Strenssil. "You frequently washed collars for me when I was at Richmond Depot, and I cannot get any Laundry to do them as well as you do."

— Park. "I am much obliged to you for returning the collars so promptly."

— Vicarage. "The Washing has been very satisfactory."

- Hall. "Suit us very well with the work."

- House. "I wish to thank you for the great attention

Beaumont Terrace. "As I am very well pleased with the way the sample of washing I sent you this week has been done, I should be glad to know on what terms you will take all my washing."

"Thanks very much for dress being so beautifully cleaned. It is like a new one."

'The Curtains are very nice." " Your Laundry is excellent." *I know well what your work is, as you did the whole of our Laundry work for three years or more prior to our leaving D —. I have no doubt of your success here, which I feel sure will progress rapidly as your work becomes known." The — House. "Mrs — writes to inform Mr Steele she is quite satisfied with the linen, etc., sent this week from his Steam Laundry."

"The clothes are greatly improved in colour."

The Proprietor undertakes to produce in his office the original of any of the above unsolicited Testimonials.

All Laundry Work done on the premises without the aid of Chemicals, and under Strictly Hygienic Conditions.

Customers may rely upon all work receiving prompt and skilled attention at reasonable charges. Dyein g and DryCeaning in all its branches. Steam Laundry Works and Offices:-NEWGATE, BARNARD CASTLE.

the other solicitors, and now requested the elevation plan of the building. There is (added the Clerk) an ingenious "user" clause added to the agreement, prohibiting the future use of the building as a chapel or asylum, or as a manufactory.—The Council then went into committee for the further consideration of the

Macadam at Scotch Corner.

The Clerk stated that the County Surveyor, in November last, asked for the bills and vouchers in connection with the expenditure of £100 for extra macadam put on the road leading to Scotch Corner, and then insisted that the particulars should be forwarded by the following December, otherwise the claim would lapse, and the amount would be lost to the Council. The Clerk added that he had been unable to send the necessary information because it had not been supplied to him by the Surveyor.—The Council gave instructions that the matter must receive the most prompt attention, and trusted there would be no further delay of any kind in this connection.

Middleton-in-Teesdale Old Scholars.

[To the Editor of the "Teesdale Mercury."] SIR,-As many of the above are readers of your valuable paper, and are widely scattered, would you kindly allow us, through the medium of your columns, to draw their attention to the approaching retirement of Mr William Oddie, headmaster of the Middleton-in-Teesdale Council Schools. Many doubtless feel that they would not like the event to take place without showing to him some proof of the esteem in which he is held by his old scholars, many of whom, though far removed from their native heath, have a genuine affection for their old schoolmaster. Many to whom the matter has been named have expressed a strong desire that the balance in the bank was £715 18s. 11d. | that something should be done, and it appears to be thought that a testimonial, emanating from those who have received their tuition Messrs. Hodgson, Winston, recently appointed, tendered a fortnight's notice to at the close of such a long and honourable term of public service. Three generations of children have passed through his bands, and many of these, we feel sure, would like to help the project. Would those scholars, who favour the idea, and are desirous of helping, kindly communicate with one of the undersigned as early as possible, so that a preliminary meeting can be held and a committee appointed to carry out the arrangements?—Thanking you in anticipation, yours sincerely, ROBT. W. TODD, Darlington Road, Ferryhill; JOHN W. ROBSON, Escombe Avenue, Bishop Auckland; WILLIAM THOMPSON, Woodbine Terrace, May 24th, 1909.

Early Visitors at Cotherston.

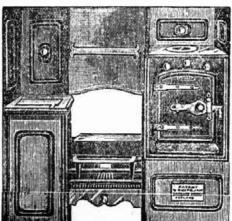

[To the Editor of the "Teesdale Mercury."] SIR,-Last Thursday morning, as my father was going over one of his fields, he came in contact with some early visitors which he had not seen before. He took them and put them into his pocket, and brought them home. When you take into consideration the stormy weather, including frost and snow, we have had, I dare say you will be surprised to learn that the early visitors were four fine mushrooms. SYDNEY HODGSON. Cotherston.

Barnard Castle Rural Council.

Mr H. L. Fife, J.P., presided over the council meeting on Wednesday.—The further con-sideration of the widening of Grand Bank was deferred until Mr Crozier's letter to the surveyor had been received .- It was decided that the work in connection with the Raby Road footpaths be proceeded with.—With regard to the repair of Raff-yard, Cockfield, it was agreed that the surveyor prepare an estimate of the cost before the conneil decided as to whether they would repair the road.— Permission was given Lord Barnard to enclose a piece of ground to increase the accommoda-tion of a house on the Raby estate by the side of the highway from Staindrop to Winston .-In reply to a request from Eggleston for a new snow plough, the Surveyor stated that an order for one had been placed.—The Clerk intimated that the existing contracts for the scavenging would expire next month, and it was decided to invite tenders for the work.—The council agreed to support a resolution. The council agreed to support a resolution passed by the Weardale Board of Guardians strongly protesting against the enormous growth of expenditure of the Durham County Council, especially in relation to the expenses of the Education Committee.—Dr. Neligar reported that the general health of the district was fair.—New rims are to be provided for the steam roller at a cost of £43 14s. 9d.—Mr Herbert Caygill was appointed caretaker at Staindrop sewage works.

North Eastern Cyclists' Meet.

- Park: " For the two pairs Curtains which camesafel to hand and look very well."

— Towers. "The Children's Clothes were very nice. I am sending all the washing this week, and shall continue to do so as long as it is as well done as at present."

"The Shirts returned home yesterday are without doubt specimene of first-rate workmanship, and are a credit to any firm."

(From Our Special Correspondent). Newcastle-on-Tyne, Tuesday Night. Councillor C. A. Connacher, this year's President of the Meet, is the Captain of the North Shields C.C., and has arranged to head the procession of wheelmen from Newcastle on Saturday afternoon on his cycle, and I might mention that this will be the first occasion since 1905, when Mr Arthur Norton was President, that the President has cycled through to Barney.

Mr Connacher will have two Ex-presidents to accompany him awheel in Messrs J. H. Woods and A. Norton, and a large contingent of his clubmates who are supporting their captain right loyally, now that the premier honours in our northern world of wheels are his, and as an evidence of the interest they take in the Meet it might be mentioned that the sea-siders have already sold 150 badges, in addition to a large number of Vice-presidents

It is now certain that four clubs will compete for the prizes in the Inner Bailey on Whit Monday morning, namely, the Brunswick, North Shields, Kensington, and Barnard Castle Excelsior. Patrons of the Inner Bailey will receive value for their money, as we are to have a miniature opera by Brunswick, North Shields will present a sketch in which the suffragettes are as prominent on the stage as they are in real life, the Kensingtonians will contribute one of their well-known entertainments, and the Excelsior Club, "Trial by Jury." Here, surely we have a variety!

I have been favoured with a copy of the list of members of the "Knarks" Club. It appears that it is to be known as "Ye Knarks," with which is associated the Order of the Merry which is associated the Order of the Merry on the work as spot pointed out, being a quarter of an action of the members of the work as the will sell land necessary for the work as spot pointed out, being a quarter of an action of the members of the work as the will sell land necessary for the work as the work Meets. The officials are as follows:—The official knark, Mr J. H. Woods; assistant official knark, Mr A. Norton; custodian of the ollicial knark, Mr A. Norton; custodian of the booty, Mr D. Macpherson; sentinel over custodian of booty, Mr W. Allnutt; guard over sentinel over custodian of booty, Mr C. A. Connacher; official fairy, Mr J. Elliott; fairy's godmother, Mr F. Nainby; head robber. Mr Bert Walker; official oof snatcher, Mr R. B. Millympers official size property. Milburne; official piano wrecker, Mr C. E. Warrington. Residents of Barney, during Whitsuntide, are requested to bolt and bar their premises whilst the "Knarks" are on the prowl. A word to the wise should suffice.

The greatest harmony exists between the officials of the North Eastern Meet and the North Yorks and South Durham Meet, and during last week Major H. Tompkins, the Richmond President, and some friends were at Sunderland at the concert promoted by the North Eastern cyclists, and were heartily received. The President of the Barney Meet, Councillor Connacher, and the hon secretary, Mr D. Macpherson, returned the compliment on Friday, attending the concert at Darlington. During the course of the evening Mr F. J. Forster, past President of the Richmond outing, called the attention of the cyclists present to the fact that the manner of reception at Richmond on the Whit Saturday might be considerably improved. As it was at present it partook too much of a private greeting, and he suggested that they adopt the customs used at Barnard Castle, namely, that the officials of the Richmond town should publicly welcome their visitors in the Market Place, a suggestion which will in all probability be dopted in the future. Meet Chat.

The official programmes are now in circulation, and contain photographs of the leading officials and views of Barnard Castle. They are issued gratuitously to all interested in the Meet, and will be sent post free for one penny. Applications for same will receive attention if sent to the hon. secretary, 86, Cardigan Terrace, Newcastle-on-Tyne. They may also be had free at the Turk's Head, Revnerd Costle and at H. Arabick's Head,

may also be had free at the Turk's Head, Barnard Castle, and at H. Appleby's, A. Win-penny's, and J. Franklin's establishments. The clubs who will decorate their head-quarters during the Meet are North Shields C.C., Brunswick C.C., North Shields Tyne C.C., Kensington C.C., and others, who have not yet entered for the best decorated headquarters' prizes.

The first prize this season is the new trophy presented by Mr John Dry, of South Shields, and £3 3s. There will be keen competition for

Mr Dry's beautiful gift.

I have been privileged to see the decorations which the North Shields C.C. have been busy with for the last six weeks, and which will be erected at the President's headquarters, the Angel.

The scheme is a large one and the sea-siders quite anticipate that it will be a source of delight to the crowds who will visit Barney

during the Meet.
Our President has already made a hit in the cycling world, and at the concerts held weekly, during the past few weeks, has endeared himself to all he has come in contact with. Mr Connacher is a most excellent speaker, and delivers his remarks in a clear

speaker, and delivers his remarks in a clear and lucid manner, without any apparent effort, always a desirable thing in an orator.

The North Shields Tyne Club inform me that they have something unique in decorations for their headquarters at Milner's Hotel. They quite expect to get amongst the prizes. In conclusion we are all looking forward to our visit to Barnard Castle, where we always receive such a genuine and hearty greeting. receive such a genuine and hearty greeting.
All that is wanted is fine weather, and that
given us everything promises well.

Upper Dale Notes,

[BY OUR OWN CORRESPONDENT.]

There was a special meeting of the Middle ton Parish Council last Friday night, when to for the town was considered. It was repor that Mr H. L. Fife had been consulted, and proposal would receive the co-operation Lord Barnard and himself. A letter was re-from Mr Richardson, roundabout propriet stating that his offer for the green would be held good, seeing that there was only show, and it was decided to offer him the state. at half his original offer of £10.

In connection with Forest Church a so evening and dance was held in the schoollast Friday night, which was very large attended. Special solos and piano solos we contributed. Mr J. T. Millan acted accompanist, and dancing was kept up to late hour.

The funeral of the poor fellow who found dead in Middleton Quarry on Wedne morning took place from the quarry on Frid afternoon, and the body was laid to reg.
Laithkirk Churchyard. There were a ga
number of his fellow workmen from a
waterworks, who attended to pay the la
tribute of respect. The missioner (Mr la
wood) and Mrs Petty, the unfortunate ma
landlady, also attended.

As will be seen from our advertisement columns there is going to be lively doing. Whit-Monday at Middleton. This annual function, promoted by the brass band, growing at a great rate, and this years's print bave been greatly increased. There are horse classes, besides trotting and walk competitions for horses. There is also to potato race, wrestling, a 150 yards' i handicap, etc., and sports for children. other attractions there will be a Maydance, the Toesdale pierrots, and selec by the band.

The Middleton Good Templars' effort i of the piano fund, last Saturday, proved a success. The jumble sale in the aftern was on the largest scale of anything of kind held in the town previously. There also a sale of work, and the whole was patronised, and a nice lift to the fund resul In the evening an entertainment was which was presided over by Mr Geo. Pin Although the climatic conditions were inducive to an indoor gathering, there we good attendance, and a grand programme rendered. The Rechabite Orchestra g elections, and solos were contributed by F. Watson, Misses Benson, M. Peart, Messrs A. Brown and W. Nixon; recitate by Misses A. Beadle (Newbiggin), and A. H Misses A. Beadle (Newbiggin), and A. in Miss N. Pinkney ably accompanied. The w humorous sketch, entitled "The Dota Patient," terminated the proceedings, characters being ably sustained by Mn Lowe, Mrs J. Wilkinson, Miss A. Hunt, Mes T. Harrison and P. Robson.

BOWES SEWAGE-DISPOSAL WORKS

Mr. Dugdale Agrees to Sell a Sits At the monthly meeting of the Starting Rural District Council, on Wednesday, un the presidency of Mr John Walton, J.P., i matter of the Bowes sewage-disposal we came up for consideration.—The Clerk: I rep that since last meeting, at the request of Council, the Chairman and myself met Dugdale to go thoroughly into this matter, as the Chairman took a very prominent) in the matter, and conducted the conversal with Mr Dugdale, perhaps he will give report. At all events Mr Dugdale received most courteously, and he agreed to allow spot pointed out, being a quarter of an ace thereabouts as situated and shown on the and the price will be at the rate 2160 per acre, and also a site the plpes at the rate of three shills for each lineal yard, and £5 for each mash the minerals, etc., being reserved, with a mi of way to the works for a yearly £2, and district council maintaining the work thoroughly efficient manner. He require substantial stone wall or fence erecting n

shall be properly carried out. The Chairman:

the works. Mr Dugdale is quite satisfie accept the Council's assurance that the

I went, as Mr Watson has just told you, as found Mr Dugdale very wishful and wan to be very helpful. As far as I could se nicer gentleman I never talked to in my He showed us the place, and it seems an spot. As far as manholes are concerned are not necessary. It is a nice and right all the way, and there is a road to it, as all the way, and there is a road to it, as shall move that we accept his terms. Dent: I have great pleasure indeed in seeing it. I don't think there will be any fur cost in the future. Everything that is make in his charge will be very reasonable, according to law.—Mr Hird: If we have at these pipes to take up can we do so from the him. That we would want to take up is to him—that we would want to take up p on the road leading to it.—Mr Lodge: I it the scheme is much cheaper than the one.—Mr Hird: It seems to be satisfactor. The Chairman: I hope that is the end of The Chairman: I hope that is the end of difficulty at Bowes, and that all bye-gones be bye-gones.—The motion was thereforeried.—The Inspector: What is going follow?—The Chairman: Mr Watson prepare the agreement. You don't want to Bowes up in summer time.—The Inspector But we can be shaping our work.—The Cle It can be readily carried out.—Mr Hirlmove that Mr Watson go on with it.—Mr De I second it.—The Clerk: I know the title is very easily carried out.

Visit to Darlington on Whit-Monday.—Segone, hearing extinct. Are you quite so Before giving up all hope, why not try Ison Method of Treatment—without operation. Blindness and Deafness have been successfurcated and cured by the Ison Method, with operation, for over thirty years. This is rash statement, but is simply borne out by splendid testimonials of recent date which Ison, the eminent Oculist and Aurist, received from hundreds of grateful patie in all parts of the kingdom. Copies of the testimonials, sufficient to convince the seeptical, along with a printed forsquestions to answer, will be gladly forward free to all sufferers.
