#### S.W. DURHAM SCOUTS ASSOCIATION.

A meeting of the South-West Durham District Association of Boy Scouts was held District Association of Boy Scouts was held at Staindrop on Saturday, Mr G. Oxley, Evenwood, presiding, and the attendance including Lord Barnard, County Commis-sioner, and Mr J. W. Brouniey, J.P., honorary secretary. A letter was read from the Rev. H. S. C. Spurrier, late Vicar of Staindrop, thanking the Association for its kind macarge on big

the Association for its kind message on his retirement, and saying that it had always been a pleasure to him to do what he could for the Scout movement. Mr T. G. Coates, treasurer, reported a

balance in hand of £14 1s. Mr John Rand, badge secretary, reported

the issue of 24 badges since the last meeting -ten to Barnard Castle School troop; ten to the First Staindrop troop; and four (ambulance) to the First Barnard Castle troop.

Beports from the groups showed that good reports from the groups showed that good progress was being made at Cockield. At Evenwood, according to Mr Dunn, there had been visits by the District Commis-sioner to present medals to Scoutmaster Musgrave and Assistant Scoutmaster. Tallentire. There had been a party in collaboration with the Girl Guides, and the troop's 21st birthday had been celebrated. Four cubs had joined the troop and four of the patrol leaders attended the conference at Raby Castle on March 22nd. On the On the previous Sunday scouts acted as messengers for the A.R.P. at the local Home Guard exercises. The collection of waste paper had been resumed by the troop, and Mr Dunn expressed the opinion that the collection could be done better by the Scouts than by

the local authority. Mr Broumley said there was no reason why scouts should not collect waste paper. The paper had to be collected and it did not

The paper had to be collected and it did not matter who collected it so long as it reached the mills: If scouts wanted to collect waste paper the Council could not stop them. Mr J. H. Franklin, reporting on behalf of the Etherley troop, said efforts to bring in lads from Witton Park had been dis-appointing. Much salvage had been col-lected, and the troop was progressing favourably. Mr Coates, reporting on the Staindrop troop, said there had been a week-end camp at Bedburn Hall, and the collection of waste paper had exceeded all expectations.

paper had exceeded all expectations. Lord Barnard, reporting on the Scouters' Lord Barnard, reporting on the Scouters' Conference at Durham, said it was very successful, there being an attendance of 140 in three sessions. He said-the general con-clusion arrived at was that given a reason-able chance they could still provide as good quality products as any other organisation yet thought of. Scouter Holt gave an amus-ing and interesting talk of a varied charac-ter : and there was an address by Professor ter ; and there was an address by Professor Jeffreys, Professor of Education at Durham University, which called for more discus-sion than he expected, raising many inferesting questions.

It was decided to hold the annual district competitions about the middle of June in form similar to that of previous years, but slightly varied

Slightly varied. There was some discussion on the pro-posed Baden-Powell Memorial. Lord Barnard said he had tried to find out

Lord Barnard said ne had tried to find out how much money was required for the memorial, but so far had not been able to. He was sure they would all want to take a share of the work, and the money would be spent on building a house in London which would be the headquarters of scouting for the whole world. The question of what the whole world. The question of what they were to Lord Baden Powell was one for all of them, for it would be readily agreed that they had much fun in scouting which they would not have had if Lord Baden Powell had not started the move-ment. He thought the matter of helping to The model of the matter of helping to raise funds would be one for groups rather than for district efforts. It was agreed that the matter should stand over in the hope that it would "sink in" and be ready for discussion later. In his report as District Commissioner. Lord Barnard said he had visited the troops at Barnard Castle and at Barnard Castle School and was satisfied that both were getting on all right. Barnard Castle troop could not be increased because of the lack of accommodation, but Mr Harrison was a good leader. At Gainford a box named good leader. At Gainford a boy named Wright, only 123 years old, seemed very named determined to undertake scout work and it was hoped that a patrol would be formed in the village. With regard to general war-time problems they were up against the question of uniforms, in regard to which he felt they were not being fairly treated. Every effort was being made to obtain some concession, which except in the personal estate is to be paid by my matter of supplies had not been altogether

The enrolment of A.T.C. Cadets successful, was not having a very serious effect on scouting, and there were several cadets who were active scouts. Cadets were somewho were active scouts. Cadets were some-thing new and it was not the intention of the War Office that they should be encour-aged to the detriment of other voluntary organisations, of which scouting was one. There would be a county patrol leaders' conference at Durham on May 30th, and they had secured Mr Haydon Dimmock, editor of "The Scout," to give an address. It would be a day conference and not a week-end camu as was at first expected. In It would camp as was at first expected. In regard to the waste paper collection, local scouts had collected 22 tons 6 cwt, 2 grs., and of the proceeds 237 5s. 3d. had been given to groups and £15 0s. 9d. to charities. given to groups and Ers be, so, to charactering For mixed paper and cardboard  $\pounds$  per ton was now paid, and for newspapers and books  $\pounds$ 7 per ton. Concluding, Lord Barnard said he was quite satisfied with the condi-tion of the District, considering all the difficulties. He hoped that in the time weather they would be out as much as weather they would be out as much as possible and try to achieve something in the way of camps if only at the week-ends. On the whole wartime problems ought not to trouble them.

#### STAINDROP COMFORTS FUND.
